Instructions:

- 1) List your top five personal values
- 2) Under importance weight, split 100 between your core values based on their importance
(e.g. integrity 20, family 30, faith 35, life balance 10 , generosity 5)
- 3) List your options you are struggling to choose between
- 4) Rate each option 1-10 (10 being high) on how it meets that value – put the number in the unshaded portion of the box
- 5) Multiply the importance weight by that rating. Put the total in the blue box.
- 6) Total the blue boxes for each option. The option with the most points lines up best with your core values.
